

Customized Brokers: When It's Got To Get There On Time – And Right.

In the brokerage business, experience counts. And that's why Customized Brokers can be so important to your success.

Since 1989, we've been a leader in customs clearance of produce into the United States. This invaluable experience allows us to offer truly customized services to meet the unique needs of every client.

Over the years, we've built an unparalleled knowledge base in compliance issues* and outstanding relationships with U.S. Customs, the FDA and USDA. This allows for expedited service of our clients' shipments. Of course, all this experience and efficiency also allows us to offer some of the most competitive rates in the business.

In the course of more than two decades, we've developed a proprietary, streamlined clearing process and strong partnerships with all carriers and service providers. So your shipment will arrive at its destination safely and on time. Whether arriving by land, sea, or air, to any point of entry in the U.S., Customized Brokers offers you unsurpassed dependability, experience and service.

We are C-TPAT certified,* and we urge all customers to do the same.
